

Mr. Harris 6th Grade Science

Nonrenewable Student Choice Project

2nd Period- Must do 3

5th, 6th, 7th and 8th Periods- Must do 2

Project is due at beginning of class Friday, January 11th. You will have all period on Tuesday, 1/8/19 and Wednesday, 1/9/19 to work on this. It will also be homework. All posters, comics, poems and collages must be done on the paper that will be provided to you.

<p>Create a comic strip that features a superhero that encourages people to use one nonrenewable resource of your choosing. Give reasons why you should use it!</p>	<p>Make a collage of pictures (you must print at home or cut from magazines) showing the different types of nonrenewable resources.</p>	<p>Create a graphic novel that shows the disadvantages of nonrenewable resources. Must be accurate.</p>
<p>Make an acrostic poem using the word nonrenewable.</p>	<p>Write a short play that encourages people to conserve resources.</p>	<p>Make a poster condemning one type of non-renewable resource. Must include a good hand drawn picture and 4 advantages.</p>
<p>Make a poster promoting one type of a non-renewable resource. Must include a good hand drawn picture and 4 advantages.</p>	<p>Write two paragraphs describing one form of a nonrenewable resource. It must include how we attain the resource, use it and both advantage and disadvantages of that resource.</p>	<p>Staple paper together and write a picture book that will teach second graders about nonrenewable resources (all of them).</p>
